Painted wooden Christmas Hanging Decorations with Glitter

An angel, a snowflake and a star are painted with Plus Color craft paint. When dry they are decorated with details drawn with a marker and then sprinkled with glitter over areas covered in wet A-color Allround medium glue lacquer.

Paint the wooden hanging decoration with Plus Color craft paint on both sides and leave to dry.

Draw details with a marker – we have used Poster Hobby Marker. Apply A-color Allround medium glue lacquer to areas you wish to cover with glitter and sprinkle glitter.
