

Pixies made from  
Papier-Mâché  
Cones

STEP BY STEP 023

Inspiration: 12754

01  
Paint three different sizes of papier-mâché cones with Plus Color craft paint. The dots on the hat are made using the end of a brush handle.

02  
Form the nose, the hands and feet from Silk Clay and attach them onto the large cone. Glue the cones together using a glue gun. (The small tree trunk is either a piece of flower stick or a small stick).

03  
If the Silk Clay does not stick to the cone without glue – use a glue gun or Clear Multi Glue.

## Pixies made from Papier-Mâché Cones

These shy pixies are made from papier-mâché cones which are painted with Plus Color craft paint. The hands, feet and other decorations are formed from white Silk Clay modelling clay.
