

A Keyring Fob made from a Shrink Plastic Sheet Figure

STEP BY STEP 023
Inspiration: 13293

01 Use a black marker and draw a figure on white paper using your imagination. NB: use the A6 format.

02 Place the shrink plastic sheet on top of the design and trace it using a black Uni Posca marker. You may fill in with white Uni Posca.

03 Cut out the figure and make a hole at the top using revolving punch pliers for attaching it onto a keyring when finished.

04 Place the plastic figure on a piece of baking paper on a baking tray and place it in a pre-heated oven at 160°C for approx. 45 seconds or until the figure has shrunk and unfolded again.

05 Attach the finished shrink plastic sheet figure in a keyring as a pendant; a keyring fob.
