

Decorating Bags made from faux Leather Paper

The faux leather paper shoulder bag and tablet pouch are decorated with a black faux leather paper star and letters written using a template and a textile marker.

Cut out a star from black faux leather paper using the template.

Slowly and carefully stitch along the edge using a sewing machine.

Template

Remove the protective backing paper from the foil, place the star on top and cut out. Remove the other backing paper and stick the star onto the bag.

Place the template on top of the bag and copy letters with a textile marker.
