

Elves made from
Cones of
self-hardening
Clay

STEP BY STEP 023

Inspiration: 15507

01

Model a cone from self-hardening clay. Leave to dry till the next day.

02

Paint the top of the dry clay cone with red craft paint.

03

Draw facial features on the clay cone with an ordinary marker.

Elves made from Cones of self-hardening Clay

These elves are modelled as cones from self-hardening clay and then decorated with Plus Color craft paint. They are easy to make – even for very young children.
