

A box with a personalized lid

These small boxes are perfect for storing the fun treasures that the children find on their trips to the forest or on the beach. The personalized lid makes it the children's very own treasure box.

Inspiration: 16207

How to do it:

Choose your background colour and pour the paint into a transparent document wallet or a laminating pouch.

2

Spread out the paint inside the plastic sheets and open them up.

3

Push the lid into the paint and carefully remove it again.

4

Let the paint dry completely.

5

Decorate the lid by applying Plus Color markers to the wooden letter stamps and the small decorative stamps. Now print with the stamps. Decorate further with Plus Color markers.

6

Once the lid is completely dry, apply a coat of varnish for increased durability.

A tip

If you want more colour variation, you may use several colours of paint for the background. Try to avoid mixing too much or else you may end with an ugly brown colour. Make sure that you don't end up with too thick a coat of paint when pushing the lid into the paint as the lid will dry with an uneven surface.
