

A Valentine Card with Design Paper and a Heart made from red Card

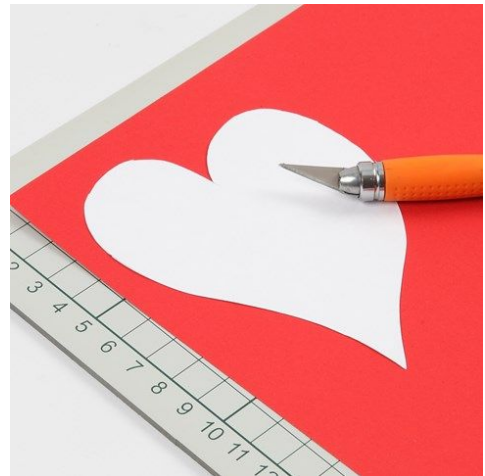

This greeting card is intended for Valentine's Day. It is decorated with Vivi Gade design paper and a heart made from red card with a text written in white marker.

Inspiration: 13504

1.

Cut a piece of design paper approx. 5mm smaller all the way round than the front of the greeting card. Attach this to the front of the greeting card using double-sided adhesive tape.

2.

Print out the template which is available as a separate pdf file for this idea. Cut out and draw the outline of the cut-out template onto a piece of red card. Cut it out.

3.

Write text on the red heart with a white Uni Posca marker. You may also draw small hearts.

4.

Attach the heart onto the design paper on the front of the greeting card using 3D foam pads.

5.

Punch out small dots from red card using a hand punch. Use these for decoration on the Valentine card. You may use an ordinary hole punch instead. Glue the dots onto the card using a glue stick.
