

Wooden Frames decorated with branded Designs and bright Colours

This wooden collage - consisting of three frames - is decorated with branded designs, using a Pyrography tool. It is then painted according to your taste with water-diluted Plus Color craft paint in bright colours.

Inspiration: 14305

1

Burn designs into the wood with a Pyrography tool according to your imagination.

2

Dilute Plus Color craft paint with water, to prevent the paint from covering the branded designs. Use a thin brush and paint the frames according to your taste.

3

Attach photos and/or small drawings inside the frame.
