

A painted Candle Holder with a Feather in Relief

This candle holder is decorated with the outline of a feather in relief made with a glue gun. When dry, Plus Color craft paint is dabbed onto the candle holder.

Inspiration: 14491

1

Use a glue gun to make the outline of a feather on the candle holder. Leave to dry. A TIP: You may print a design and use this as a template by taping it onto the inside of the candle holder.

2

Dab Plus Color craft paint on top of the feather in relief using a foam stencil brush.

3

Immediately wipe off the paint from the relief decoration using a piece of kitchen roll. You may use a cotton bud as well. Dab paint onto the rest of the candle holder and leave to dry.
