

Elves made from Cones of self-hardening Clay

These elves are modelled as cones from self-hardening clay and then decorated with Plus Color craft paint. They are easy to make – even for very young children.

Inspiration: 15507

1

Model a cone from self-hardening clay. Leave to dry till the next day.

2

Paint the top of the dry clay cone with red craft paint.

3

Draw facial features on the clay cone with an ordinary marker.
