

A Creative Halloween

Turn up the spooky fun with creative ideas for the Halloween table and ghostly activities for children.

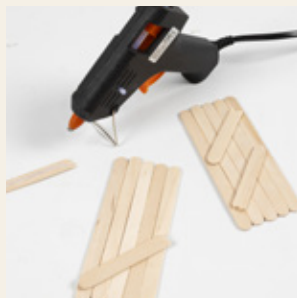

Halloween popsicle stick hanger

Make fun and spooky Halloween figures out of popsicle sticks and use them as small hanging decorations on a branch or in a window.

Step-by-step
instructions

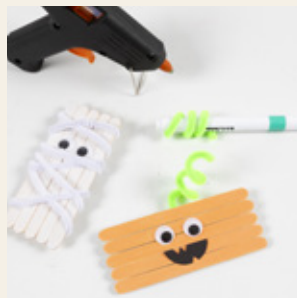

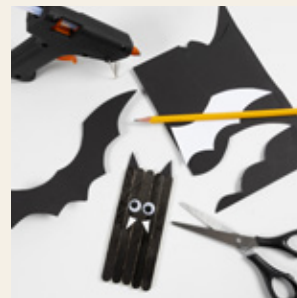

1 - Place five wooden sticks next to each other. Break an extra wooden stick in half and glue the two halves diagonally over the five sticks so that they fit tightly together.

2 - Colour in the front with markers. Add several layers for an opaque effect.

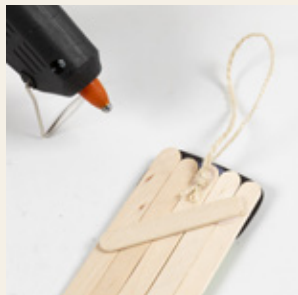

3 - For the mummy, twist three pieces of white pipe cleaner together into one long piece and randomly wrap around the white figure. Use the stencil to cut the pumpkin's mouth out of black cardboard and glue it onto the orange figure. Make the stem from half a green pipe cleaner, which you wrap around a marker to create the spiral shape. Glue the stem to the back. Add self-adhesive googly eyes to both figures.

4 - Fold a piece of black cardboard and place the stencil for the bat's wings with dotted line against the fold. Trace, cut out and unfold the wings. Glue them to the centre of the back of the bat. Also cut out two black ears and two pointed white teeth and glue them in place. Add self-adhesive googly eyes.

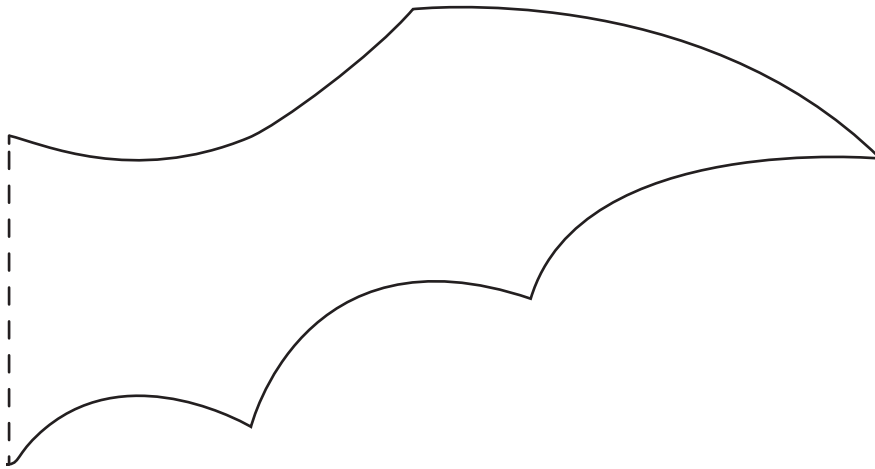

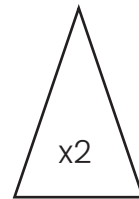

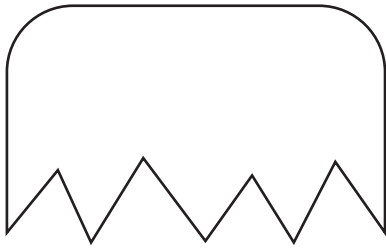

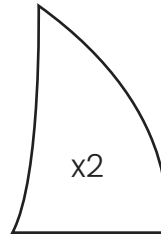

5 - Cut the horns of the monster and hair of Frankenstein's monster out of cardboard and glue them in place with a glue gun. Add self-adhesive googly eyes. Draw mouths and details with markers on both figures.

6 - Cut a piece of string about 25 cm long for each figure. Knot the ends together to form a loop. Glue a string to the back of each figure.

Cardboard Halloween place cards

Make your Halloween table even more inviting with these spooky cute homemade cardboard place cards. The ghost can stand on its own, while the bat flutters with its wings on the edge of the glass as a fun and decorative detail.

Step-by-step
instructions

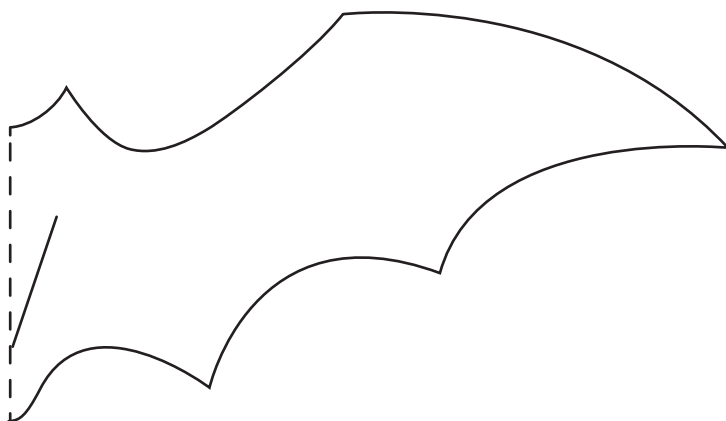

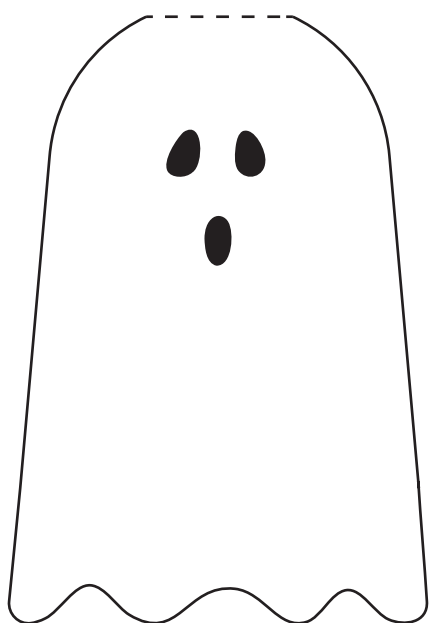

1 - Fold a piece of cardboard and place the stencil on top. Place the dotted line against the fold as shown in the picture. Trace the design and cut it out. Remember to cut a slit in the bat.

2 - Draw faces on the ghosts and write names on the place cards.

Spooky napkin ring made of cardboard and pipe cleaners

Add a spooky twist to your Halloween table with spider and bat-shaped napkin rings. They are easy to make with cardboard, pipe cleaners and fun eyes.

Step-by-step
instructions

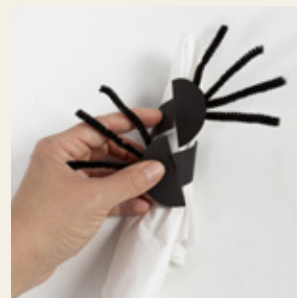

1 - Use the stencil to transfer the design to black cardboard. Cut out. Remember to cut the slits at each end as marked on the stencil.

2 - Use two black pipe cleaners for the spider's legs. Cut each pipe cleaner in half and twist the pieces together in pairs as shown in the picture.

3 - Fold at the twist, so that the four ends point in the same direction and spread them out like a fan. Glue the legs to the back of the napkin ring at both ends.

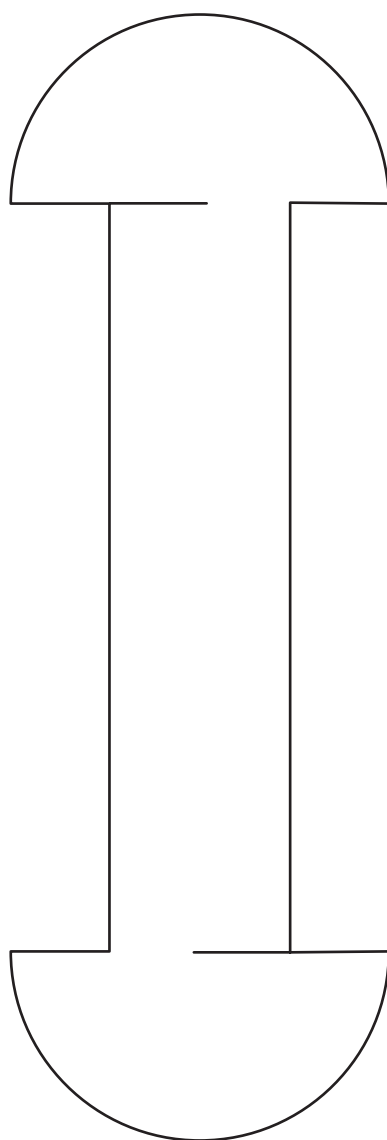

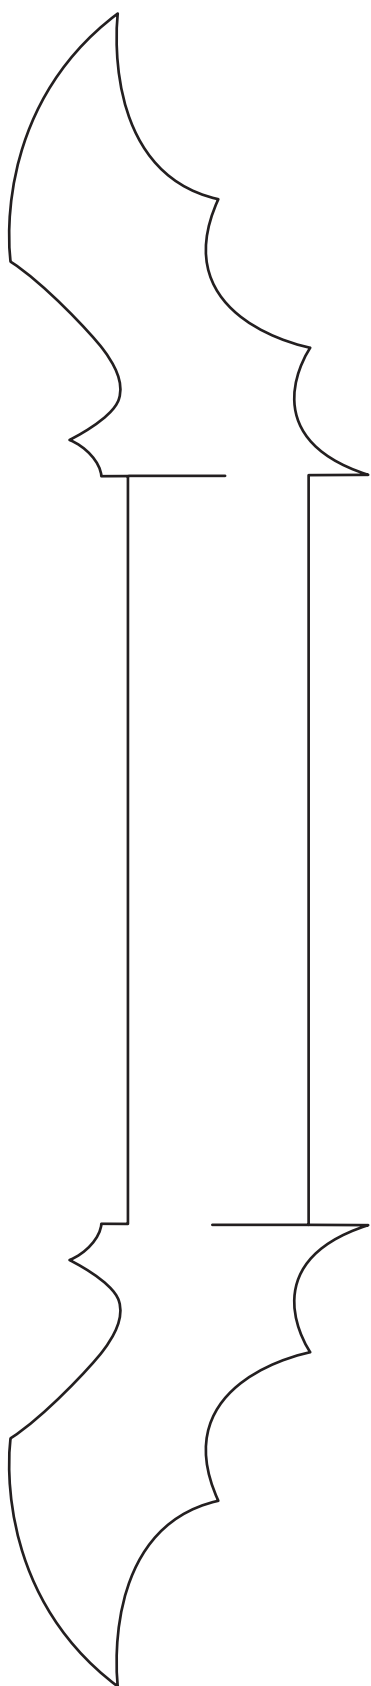

4 - When the glue is dry, place the napkin ring around a folded napkin. Make a circle by bringing together the two slits as shown in the picture.

5 - Bend the spider's legs in two places as shown. Add googly eyes. Your napkin rings are now ready for use.

Halloween straw decorations

Cut the small figures out of cardboard and add details with markers. Pumpkins, ghosts, bats and witch hats are easily attached to the straws and add a fun and festive touch to your Halloween table decoration.

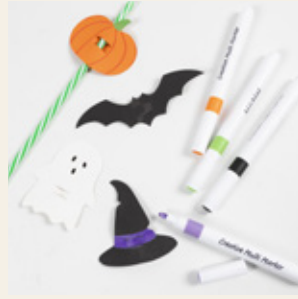

Step-by-step
instructions

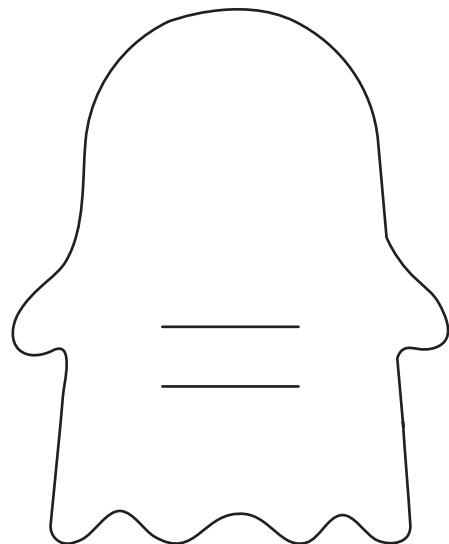

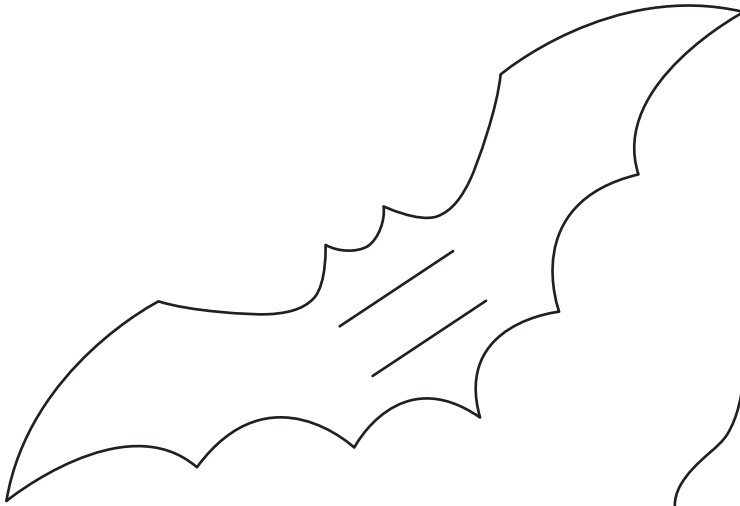

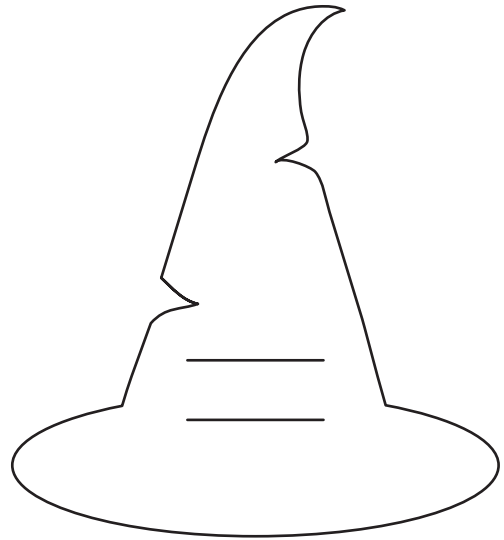

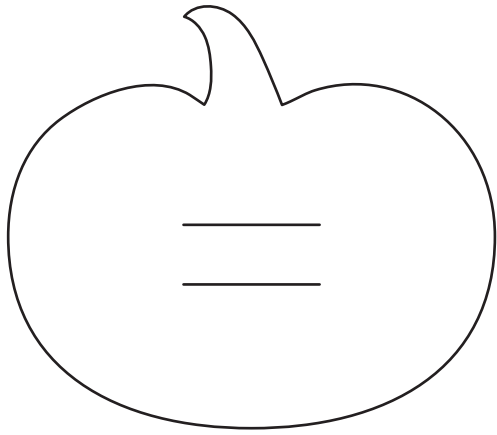

1 - Use the stencil to transfer the design to the cardboard and cut out. Use a penknife to cut the two grooves in the middle of each figure.

2 - Draw details with markers in different colours. Attach the figures to the straw as shown.

Festive Halloween candy bags

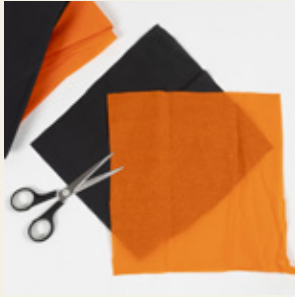

Make cute candy bags out of crepe paper shaped like pumpkins and bats and fill them with wrapped candy. The candy bags are sure to be a hit at any Halloween party or as a spooky birthday present.

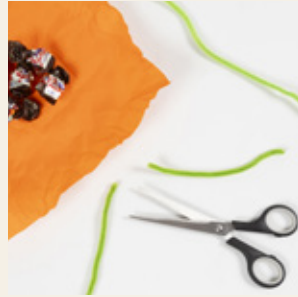

REMEMBER: THE CANDY MUST BE INDIVIDUALLY WRAPPED.

Print
template

1 - Cut crepe paper into pieces measuring 25x25 cm.

2 - Place candy in the middle of the square. Remember that the candy must be wrapped so that it does not come into direct contact with the crepe paper. Cut a pipe cleaner in half. You will need one and a half pipe cleaners for each pumpkin.

3 - Gather all the edges of the paper towards the middle to form a small bag. Keep half of the pipe cleaner on top as shown in the picture.

4 - Twist a pipe cleaner tightly around the top of the bag from bottom to top.

5 - Cut off any excess crepe paper at the top so that you can finish with the pipe cleaner. Wrap the stem around a pencil.

6 - For the bats, roll the crepe paper around the candy in the middle and close each end with 1/4 black pipe cleaner, twisting the ends together.

7 - Cut two small triangles out of white cardboard for the bat's teeth and glue them on with a glue stick. Add self-adhesive googly eyes to both candy bags.

Luminous clay ghosts

Shape small ghosts out of self-hardening clay. Once dry, place an LED tealight underneath to create a fun Halloween decoration.

Step-by-step
instructions

1 - Turn a water glass or jam jar upside down and place a polystyrene ball on top. Place pieces of masking tape on top so that the ball does not move.

2 - Roll out a piece of clay 2-3 mm thick. Place a roll of tape or a round bowl with a diameter of around 10-12 cm on top of the clay and cut around it with a knife.

3 - Place your piece of clay in the middle of the polystyrene ball and shape the folds into place so that they are roughly even. Smooth the edges and uneven areas with a little water.

4 - Use the end of a straw to pierce holes in the clay for the eyes and mouth. Make the hole for the mouth slightly elongated by moving the straw slightly up and down.

5 - Allow the ghost to dry for 12-24 hours. Once the clay is completely dry, lift the ghost off the ball. If necessary, use the tip of a straw to make the edges of the eyes and mouth smooth.

6 - Place the ghost on top of an LED tealight.

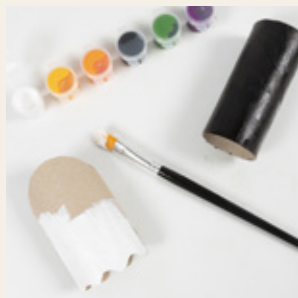

Ghost and bat garland made of cardboard tubes

Transform boring cardboard tubes into ghosts and bats. Hang them on a cord for a fun and spooky Halloween decoration. The figures can also be used as decorations on your Halloween table.

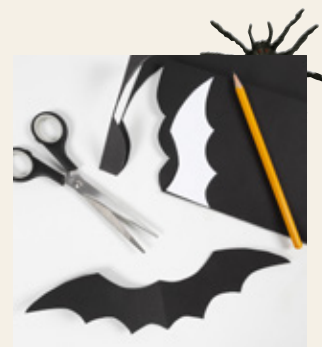

1 - Cut out the ghosts using the stencil. Flatten the cardboard tube, place the stencil on top and transfer the design to the tube. Cut along the drawn lines.

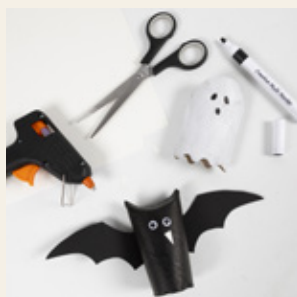

2 - Paint the ghosts white. Also paint black cardboard tubes for the bats. Allow the paint to dry completely before starting on the next step.

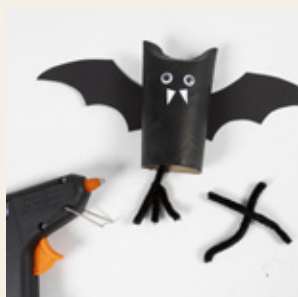

3 - Fold the top of the black cardboard tube towards the middle from both sides to create two tips as ears.

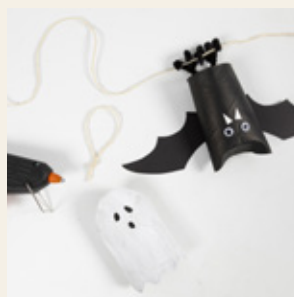

4 - Fold a piece of black cardboard and place the stencil with dotted line against the fold. Draw around the stencil and cut out.

5 - Cut two small triangles out of white cardboard for the bat's teeth. Glue on teeth and wings with a glue gun and add googly eyes. Draw eyes and a mouth on the ghost with markers.

6 - Cut a pipe cleaner into 4 equal pieces. Lay two pieces on top of each other in a cross and twist them together to form a leg with three claws. Glue the legs to the back of the cardboard tube as shown.

7 - Cut a 25 cm-long piece of cord for every ghost and make a loop with every cord with a knot at the end. Glue the hanging cord to the inside of the top of the ghost. Cut a long cord to attach ghosts and bats. Attach the bats by bending their claws around the cord.

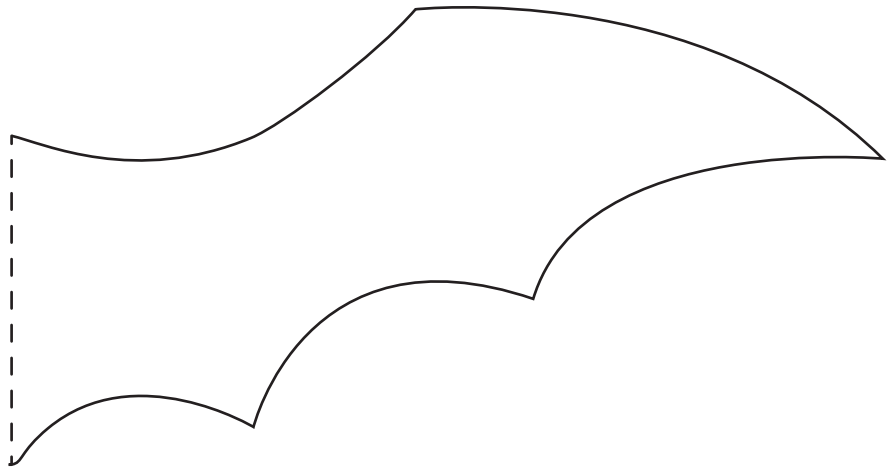

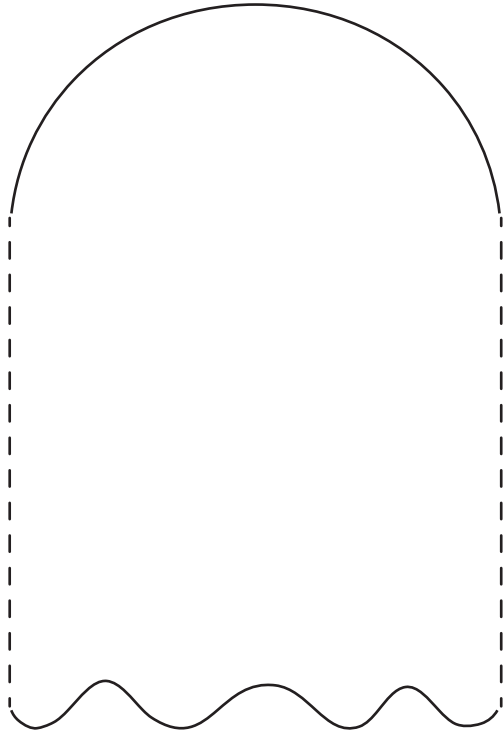

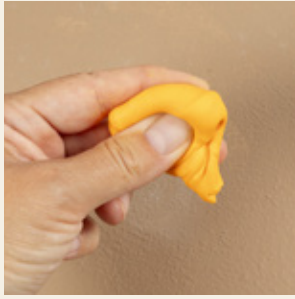

Table Confetti in Fine Clay

Make your own confetti with pumpkins and bats. Press the Fine Clay into the silicone mould and bake the shapes in the mould in the oven. Once cooled, pop them out of the mould.

Step-by-step
instructions

1 - Knead and soften the clay by hand for around 4 minutes.

2 - Press the clay into the silicone mould. Make sure the clay is pushed into all the details.

3 - Use the flat end of the tool to scrape clay off the face. Also make sure that the stem at the top has no clay on it.

4 - Press the clay into the silicone mould. Make sure the clay is pushed into all the details.

5 - Place the mould with the clay in a preheated oven at 120 degrees and bake for 18 minutes. Then allow the clay to cool.

6 - Press the bats out of the mould and allow to harden for 2-3 hours.

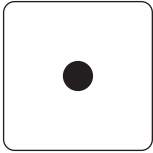

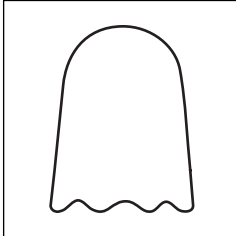

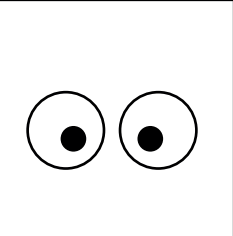

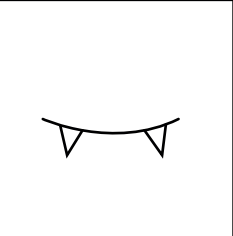

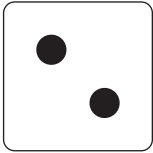

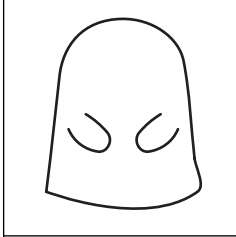

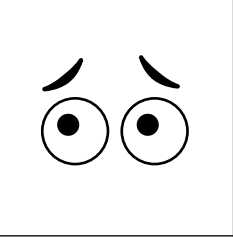

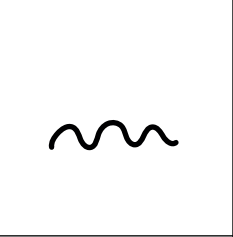

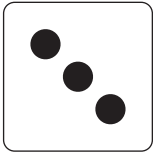

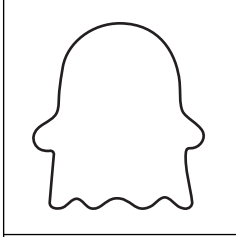

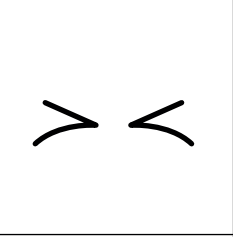

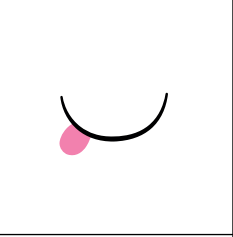

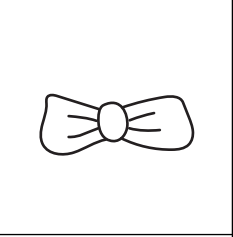

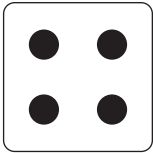

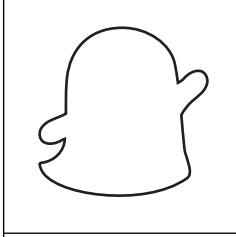

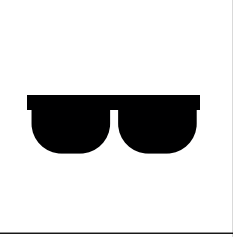

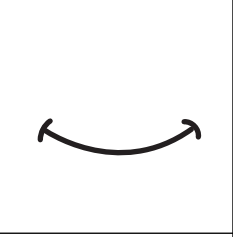

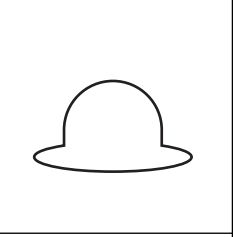

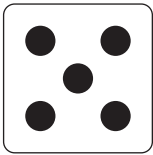

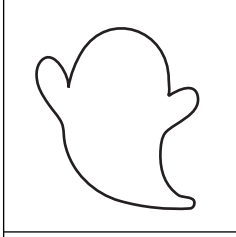

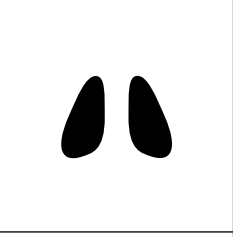

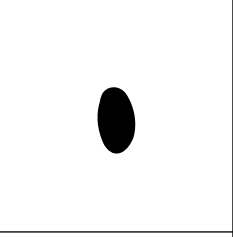

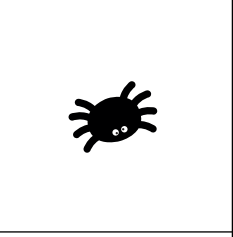

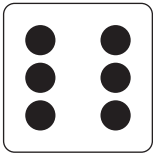

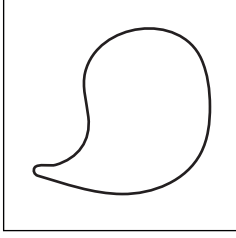

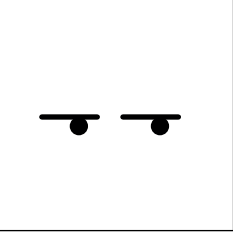

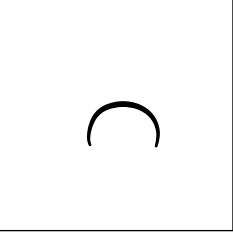

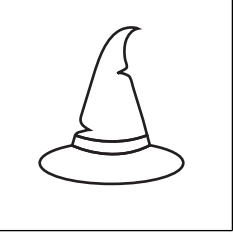

Roll and Draw – If You Dare!

Roll the dice and draw the ghosts piece by piece.
